Interdisciplinary Conference – Humboldt Kolleg

«Energy conversion: from nature to technology»

28 August - 2 September 2016
Novosibirsk Scientific Center (Academgorodok), Russia

In our days, solving the energetics problem of humanity is one of the global challenges and a prerequisite for sustainable development. The main aim of this conference is to gather insights into specific problems, which are necessary to consider when planning the research in the field of energy conversion, in particular, implying practical application.
As the main elements the program includes: (i) lectures on energy conversion and interdisciplinary research; (ii) discussion sessions; (iii) talks of young scientists and a training session for potential Humboldtians; (iv) social events aimed at strengthening the Humboldt network and contacts between scientists. Official language of the meeting is English.

Confirmed speakers
Prof. Wolfgang Lubitz (Mülheim an der Ruhr, DE)
Prof. Vladimir Dyakonov (Würzburg, DE)
Prof. Alexander Bogachev (Moscow, RU)
Prof. Hans-Martin Vieth (Berlin/Novosibirsk, DE/RU)
Prof. Jörg Matysik (Leipzig, DE)
Prof. Ivan Proskuryakov (Pushchino, RU)
Prof. Ralf Ludwig (Rostok, DE)
Dr. Torsten Gutmann (Darmstadt, DE)
Prof. Jan Berhends (Berlin, DE)
Prof. Robert Kaptein (Utrecht, NL)
Dr. Jan-Bernd Hövener (Freiburg, DE)

Organizing committee
Prof. Andrey Morozov – **chair**
Prof. Alexandra Yurkovskaya
Prof. Leonid Kulik
Prof. Konstantin Ivanov

International Advisory board
Prof. Wolfgang Lubitz
Prof. Hans-Martin Vieth
